### f gppkuj qtugtcf kuj eqo Dgrj k Opvctlk

Dennis' Horseradish is Canada's premium, small-batch producer of horseradish. We are a 60-year-old company, based in Delhi, Ontario. The Dennis' brand is carried in 500+ stores across Canada. We also serve Private Label customers in Canada, the US and Asia. At Dennis', we control the entire process from end to end. We make all of our products in our own SQF-certified manufacturing facility in Delhi. There are two key differentiators with our products. First, our horseradish root is grown in the sandy soil of Norfolk County, Ontario. The ideal growing conditions here produce hotter, larger, and tastier root than anywhere else in North America. Second, our signature coarse grind is unique in the market. Private Label customers also appreciate our willingness to customize the recipe to their clientele and be flexible on MOQs.

Our impeccable reputation has been forged from many years of relentless customer service delivered directly by the three owners themselves. Our many customers often come to Noble Foods from other, larger, manufacturers, where those customers found they weren't getting the services that they had hoped for. Others are thrilled to work with Noble Foods due to our reasonable minimum order quantities. For them, the benefit of not tying up their capital in inventory is paramount.

Frankie's was designed to be the healthier alternative to traditional snacks everyone already loves, like Cheetos for example. We created a guilt-free organic alternative for the price of a conventional snack. What sets us apart from other puffs currently on the market is we incorporated sprouted quinoa & sprouted brown rice in our base in order to appeal the health-conscious customers. Overall the taste and crunch are not compromised, making the better-for-you alternative a great choice! The reason we use sprouted in our base is that sprouted quinoa and sprouted brown rice permit easier digestion, it is much more nutritious, and consists of an addictive crunch like a chip.

Their vegan cheeses are made with a coconut oil base and flavoured with spices and nutritional yeast, which gives them an authentic cheesy taste. They have a solid form when chilled, but will melt perfectly, adding a little extra punch to your dishes.
